“With a common goal of getting small businesses started and helping to assure their success, the collaboration between the Alpine Chamber of Commerce and SBDC has combined the resources of both entities to provide a higher level of service to our clients than either could have done alone. The professional and knowledgeable staff of the SBDC has provided guidance and assistance to the all-volunteer Chamber organization that has been a tremendous help this year as we refocused on the Chamber's mission. We look forward to continuing this mutually beneficial relationship in making the Alpine business community grow and prosper. “

*Martha Latta, Board President*
